

AERONÁUTICA SDLE QUALITY POLICY

The Management of **AERONAUTICA SDLE**, aware that the only way to ensure the prosperity of the company is to achieve the full satisfaction of our customers, has decided to promote a quality management policy, including the requirements of the aerospace industry that is in turn a commitment to the demands of society and our customers. The general objectives that are pursued are:

- **PREVENT THE APPEARANCE OF ERRORS** in our manufacturing process, developing an effective process to control non-conformities -when they appear- that prevents their transfer to the client.
- **COMPLY WITH THE REQUIREMENTS OF THE CLIENTS AND WITH THE APPLICABLE LEGISLATION**, developing and updating the working methods adapted to the current regulations and to the requirements of the established reference standards.
- The **RESPONSIBILITY** to achieve the degree of quality effectiveness established in our system that reaches ALL LEVELS, functions and all the personnel of the company.
- The Management assumes as an obligation of its responsibilities, the commitment to exercise leadership in the implementation and application of behaviors consistent with the Management System of **AERONAUTICA SDLE**., Acting as a driver, guide and example in the fulfillment of an obligation that it concerns us who form our company.
- CONTINUOUSLY IMPROVE the effectiveness of the management system, according o the standards **ISO 9001:2015** and **ISO 9100:2018**.
- **MOTIVATION** of all personnel is essential for the efficient performance of our processes.

Faithful to these principles, the precepts to be met by AERONAUTICA SDLE. they are included in our Quality Management System, which is declared mandatory.
